1) The Profi 120 tariff plan is intended for customers who have concluded the Frame Contract or Important Customer Contract. The tariff plan can be combined with any of the currently offered tariff add-ons, unless it is stipulated otherwise. The provision of the tariff plan will be terminated automatically after the effectiveness of the Frame Contract or Important Customer Contract terminates. Within 5 days following the termination of the respective contract, the customer is entitled to activate any of the tariff plans currently offered to customers without the aforementioned contracts. Should the customer fail to do so within the stipulated period of time, T-Mobile is entitled to change Profi 120 to another tariff plan selected by T-Mobile that most closely corresponds to Profi 120.

2) No item-based volume discounts apply to the Profi na míru (Customized Profi) tariff plan, unless stipulated otherwise in the Frame Contract. The Profi na míru (Customized Profi) and Profi na míru 5 (Customized Profi 5) tariff plans are intended for customers who have concluded the Frame Contract. The tariff plans can be combined with any of the currently offered tariff add-ons, unless it is stipulated otherwise. The provision of the tariff plan will be terminated automatically after the effectiveness of the Frame Contract terminates. Within 5 days following the termination of the respective contract, the customer is entitled to activate any of the tariff plans currently offered to customers without a concluded Frame Contract. Should the customer fail to do so within the stipulated period of time, T-Mobile is entitled to change Profi na míru (Customized Profi) and Profi namíru 5 (Customized Profi) to another tariff plan selected by T-Mobile that most closely corresponds to Profi na míru (Customized Profi) and Profi namíru 5 (Customized Profi 5). No item-based volume discounts apply to the Profi na míru (Customized Profi) tariff plan, unless it is stipulated otherwise in the Frame Contract.

3) The voice mailbox is also accessible from another phone via the phone number 603 12 3311. The rate applicable to these calls from a T-Mobile phone is CZK 1 /min for both standard tariff plans and for the HIT add-on.

Data and fax services are activated automatically and free of charge for all the tariff plans listed above. Prices are stated in CZK per minute. The first minute is charged in full, after which the connection is charged per second. No peak/off-peak hours are distinguished for the above-listed tariff plans. Multinumbering allows customers to use three special numbers with one SIM card (for fax, data and voice calls). Activation and use of the service are free of charge.

The prices are stated in CZK without VAT (in brackets with VAT) per month and apply in the Czech Republic. Add-ons and bundles are charged according to the tariff plan with which the add-on or bundle has been activated unless it is stated otherwise. Unused units are not rolled over to the next month and are non-refundable. Add-ons and bundles are automatically renewed in subsequent billing periods until they are deactivated. Special rates and free units apply after using up the free units under the tariff plan, unless it is stated otherwise.

The special rates and free units apply after using up the free units under the tariff plan, with the exception of the Pevná mimo špičku (Fixed Network – Off-peak), T-Mobile mimo špičku (T-Mobile – Off-peak), PPS/PS+ (VPN/PN+) and SMS Víkend+ (SMS Weekend+) add-ons, in which case the special rates and free units apply first. All of the aforementioned add-ons and bundles can be activated at the same time (in the case of Volání 50+/Call 50+ and Volání 200+/Call 200+, only one of these add-ons can be activated; in cases like this, the last activated add-on will deactivate the previously activated, non-compatible one). In the subsequent billing periods, the add-on is automatically renewed until it is deactivated.

In the case of the Pevná+ (Fixed network+) add-on, the first two minutes are charged in full, after which the call is charged per minute. This principle applies to all calls to the fixed network in the Czech Republic, including the calls made using the free minutes.

The tariff add-on cannot be deactivated during the fixed period for which it has been activated (concluded).

For the complete terms and conditions applicable to the add-ons and bundles see www.t-mobile.cz.

Data roaming limit

Financial limit of total spending on data roaming services. When the financial limit is reached in connection with the provision of data roaming services during one calendar month for TWIST users and one billing period for other subscribers, the data roaming service will be interrupted. The service can be activated or deactivated free of charge.

Total spending limits for data services	1,225 (1,470)
while roaming	3,900 (4,680)
	15,000 (18,000)

The data roaming limit applies to the EU, EEA, Croatia and Egypt. The limit is applied to the basic data roaming rate, i.e. without the application of any discounts or free units. The data roaming limit cannot be set up for all special T-Mobile offers – “bundles” offered with existing tariff plans that contain free units for data roaming activated after 1 March 2010.

Calling from abroad (roaming)

Happy Roaming*

In the case of Happy Roaming, all services are charged at uniform rates depending on the area in which you are. You make calls at the same price in all networks in the given area. Happy Roaming can be activated with all T-Mobile tariff plans.

* Wherever the Price List mentions Happy Roaming, this also includes Happy Holiday Roaming.

Happy Roaming Price list	Outgoing calls	Incoming calls	SMS	MMS
Area 1	19 (22.80)	9 (10.80)	7 (8.40)	10 (12)
Area 2a, 2b	29 (34.80)	15 (18)	8 (9.60)	14 (16.80)
Area 3	45 (54)	35 (42)	9 (10.80)	18 (21.60)
Area 4	80 (96)	55 (66)	13 (15.60)	18 (21.60)

Prices are stated in CZK per minute without (in brackets with) VAT. The aforementioned prices of outgoing calls apply to calls to the Czech Republic, in the country visited and to another country in the same area. If a call is made between two different areas, the price applicable to the higher area is charged. (Example: When making a call from area 1 to area 3, the price of an outgoing call is CZK 45/min., i.e. based on the price for area 3). The connection time is charged per minute. Received MMS are free of charge, only the information from the T-Mobile Info service is charged based on the price list of this service. The division into individual areas is listed at the beginning of the Roaming Services chapter.

Note on roaming: In the border areas of the Czech Republic, the phone may look up a foreign network due to the signal overlap of foreign GSM networks, and your calls thus might be made via such foreign GSM network. This also applies to incoming calls, SMS, MMS and data. Therefore, please pay attention to the GSM network through which you are making your call in such areas. The price of calls to other than subscriber numbers (such as audiotex services) depends on the type of call and network from which the call was made. For more information on the prices for these services contact the T-Mobile Customer Centre. Roaming services can be billed only after we receive information from the respective roaming partner. Therefore, roaming traffic may be included in Statements of Services relating to a period later than that in which the service was used.

Automatic call transfer between the Czech Republic and Austria

The call is charged to the customer depending on the country in which it was initiated:

- Calls initiated in the Czech Republic and continuing in Austria – billed according to TMCZ's standard price list (not roaming price list)
- Calls initiated in Austria and continuing in the Czech Republic – billed according to TMCZ's roaming price list

This offer can be used at the following border crossings with Austria: České Velenice/Gmünd; Dolní Dvořiště/Wullowitz; Halámky/Neunagelberg; Hatě/Kleinhaugsdorf; Hevlín/Laa an der Thaya; Hnanice/Mitterretzbach; Mikulov/Drasenhofen; Nová Bystřice/Grametten; Nové Hradky/Pyhrbruck; Poštorná/Reintal; Přední Výtoň/Guglwald; Slavonice/Fratres; Studánky/Weigetschlag; Valtice/Schrattenberg; Vratěnín/Drosendorf; Zadní Zvonková/Schöneben. For the complete list of roaming crossings see

www.t-mobile.cz.

For the Standard Roaming price list see www.t-mobile.cz.

Roaming bundles and add-ons

One bundle or add-on can be selected with Happy Roaming. The use of roaming services not regulated as part of bundles or add-ons is governed by the basic prices of Happy Roaming. It can be used by all T-Mobile contract customers with an active Happy Roaming service.

Cestovatel (Traveller) roaming add-on

With the Cestovatel (Traveller) roaming add-on, customers will only pay a set-up fee and then the call is charged at favourable per-minute rates. In the case of incoming calls, only the set-up fee is charged.

The Cestovatel add-on can be used in all networks of these countries: Austria, Bulgaria, Croatia, Germany, Greece, Hungary, Macedonia, Montenegro, Netherlands, Poland, Slovakia, UK, and USA.

EU roaming add-on

This add-on is suitable for those who often travel to EU countries and mostly make short calls. Incoming calls are charged per second (1 + 1), in the case of outgoing calls the first 30 seconds are charged in full, after which per-second billing is applied (30 + 1). Other services and roaming in other networks are governed by the Happy Roaming price list. Calls made outside the EU continue to be charged per minute. The prices of outgoing calls apply when calling numbers in the Czech Republic and in the country visited.

EU roaming add-on price list	Prices excl. (incl.) VAT
Outgoing calls in the EU	9.94/min. (11.93)
Incoming calls	3.82/min. (4.58)

The EU add-on is valid in all EU countries, i.e. Austria, Belgium, Bulgaria, Cyprus, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden and in the UK as well as in the following exotic countries: the Aland Islands, the Azores, the Canaries, French Guyana, Gibraltar, Guadeloupe, Madeira, Martinique and Réunion, and in Liechtenstein, Norway and Iceland.

SMS roaming bundle

The SMS roaming bundle can be used with Happy Roaming during the period of one month from activation in all countries in areas 1 and 2. It cannot be combined with the EU, WorldClass and Cestovatel (Traveller) add-ons and with the Evropa (Europe) bundle.

Price list of the SMS roaming bundle	Prices excl. (incl.) VAT
Bundle activation	49 (58.80)
Free SMS	10

The free units included in the bundles can be used only during their validity period. Bundles can be also requested in advance, up to 5 weeks before the required start of validity. Unused free units or SMS are non-refundable, even if the provision of services was limited or interrupted during their validity. After using up the free minutes or SMS included in the bundles, the prices as per the Happy Roaming Price List apply.

WorldClass roaming add-on

In addition to Happy Roaming, we also offer the WorldClass roaming add-on, connecting the T-Mobile networks and other partner networks into the WorldClass network. Other services are charged at the standard rates for Happy Roaming.

For the list of WorldClass countries see www.t-mobile.cz. Connection time is charged per minute.

SMS to fixed-line numbers are deducted from the free SMS or credit. Each SMS sent is charged, even if the target telephone station is not available for a period of 72 hours. A SMS sent to a fixed-line number in the Czech Republic from abroad is charged identically to a standard SMS sent from abroad. If the roaming partner charges incoming SMS, the information SMS from the message delivery system is also charged according to such partner's price list.

Premium SMS

Premium SMS numbers start with 90. The last two digits (seven-digit numbers) or the last three digits (eight-digit numbers) express the price of the respective SMS. The price of a SMS sent to a five-digit number depends on the customer's tariff plan.

Example: If sending a SMS to 90xxx03, its price is CZK 3 (incl. VAT). If a service is delivered from 90xxx025, its price is CZK 25 (incl. VAT).

T-Mobile Czech Republic a.s. is not the provider of the services offered in this manner, it only enables their operation. For more information, go to www.platmobilem.cz.

Audiotex services

The prices of these services range from CZK 5 to 99 (incl. VAT). Calls to audiotex services can be blocked free of charge on customer request on 603 603 603 (4603 from T-Mobile).

For more information on this service and activation options see www.t-mobile.cz.

■ Můj limit (My Limit)

Limit set-up/change/cancellation	5 (6)
Information SMS about reaching limit	5 (6)
Incoming confirmation SMS	0 (0)
SMS sent to 4603	0 (0)

Prices are stated in CZK without (in brackets with) VAT. The information SMS on reaching the limit is charged upon a successful delivery. These SMS are sent during the period from 8.00 a.m. to 8.00 p.m. (if the limit is reached after 8.00 p.m., the SMS will be sent on the following day). The activation of the service (first limit set-up) will be applied from the start of the next billing period. If your phone has been switched off for several days, the information SMS may not be delivered. The following payments are not included in the limit: monthly fees, one-off payments (such as for SIM card exchange), discounts, contractual penalties, etc. For their complete list see www.t-mobile.cz.

■ Moje útrata (My Spending)

You can easily find out how much you have spent and how many free units are left for your phone number. The service is intended for contract customers.

Activation/monthly fee	Free of charge
Price for finding out via My T-Mobile	Free of charge
Incoming information SMS	5 (6)

The amount spent is stated without VAT. This service only serves for orientation purposes – information on spending is usually available with an 8-hour delay; in case of some services (such as roaming calls) with a delay of up to several days. The information on the amount spent does not take into account volume or other discounts. SMS sent to 4603 from the Czech Republic are free of charge (if sent from abroad, they are charged according to the roaming tariff). The price of an incoming information SMS is stated in CZK without (in brackets with) VAT. For more information see www.t-mobile.cz/mojeutrata.

Activation of this service is free of charge and you do not pay any monthly fees for its use.

■ Conference calls

Each set-up call is charged (to the conference initiator) based on the tariff for calls to the respective network. Activation of this service is free of charge and no monthly fees are charged for its use.

For activation and more details on this service call 603 603 603 (4603 from T-Mobile).

■ Itemized Statement of Services

	Prices excl. (incl.) VAT
Electronic Itemized Statement of Services (My T-Mobile)	1 (1.20)
Hardcopy Itemized Statement of Services	65 (78)
Hardcopy and electronic Itemized Statement of Services	65 (78)
Additional Itemized Statement of Services	99 (118.80)*
Electronic additional Itemized Statement of Services	49 (58.80)*
Electronic Itemized Statement of Services with el. Statement	1 (1.20)

* The list can be obtained for two billing periods retrospectively. The price is charged for the list relating to one billing period. When switching to the Twist prepaid service, terminating the contract or porting the phone number to another operator, it is not possible for technical reasons to retain access to the existing set-up in My T-Mobile. Thus, the customer loses access to the electronic Statements of Services and itemized lists of calls in electronic form. If the customer has set up electronic Statements for tax purposes, we recommend, before making the above-mentioned change, archiving all necessary electronic Statements of Services. The last Statement of Services will be sent in hardcopy form. The Itemized Statement of services can be converted to a printed form.

6) In special cases, a discount can be provided on this item. Abuse of the SIM card is understood as a suspicion of abuse of the PUK and BPUK codes. Another type of SIM card is understood as, for example, the GSM Banking, Profi or Twin card. A Twist customer must provide an original of the accompanying letter for the Twist SIM card containing the security codes.

7) Free exchange is only possible at T-Mobile company shops and the customer must provide a police record containing the statement of the affected person of the theft of the SIM card. A Twist customer must also provide an original of the accompanying letter for the Twist SIM card containing the security codes. Such exchange must be requested within 5 calendar days since the issuance (date) of the police record of the SIM card theft or within 5 calendar days of call barring via the T-Mobile Customer Centre (the latter only applies to contract customers). The customer is only entitled to the free exchange once every 12 months. In other cases the price of the exchange is CZK 400 (480 incl. VAT).

8) Contract customers can change their tariff plan once in a billing period; the first tariff plan change is allowed after the first Statement of Services.

9) The fee is charged only if it is possible to determine the number concerned or to establish personal data. In the case of contract customers, the fee is billed in the nearest Statement of Services, in the case of prepaid Twist card users, it is deducted from credit.

10) If no active or suspended SIM card remains in the original billing group following a change of the billing group, the operation is made free of charge. Otherwise, a fee of CZK 400 (excl. VAT) is charged for each SIM card transferred. In the Statement of Services, the fee is included in item "SIM Card Inclusion/Exclusion" relating to the new billing group.

11) Multinumbering allows data and fax transmissions via three special MSISDN (each dedicated to fax, data or voice transmissions).

12) At T-Mobile and selected partner shops, customers may pay Statements of Services using Express Payment; payments may be made in cash or by bank cards (American Express, VISA, VISA Electron, Eurocard/MasterCard, Maestro and Dinners Club). When using the Express Payment service, the amount to be paid will be settled no later than six hours from making the payment. Express Payment allows customers to pay amounts payable under Statements of Services.

13) Customers may ask for the issuance of a duplicate of a contract by phone, in writing or in person. The issuance of a duplicate is not our legal obligation; the customer may be therefore sent only a letter containing basic

Activation	Free of charge
SMS	Free of charge
Long SMS	19 per month (22.80)
MMS	49 per month (58.80)

The Postm@n and Postm@n via POP3 service can be activated with all Twist prepaid plans and with all tariff plans with a monthly Statement for up to 5 e-mail accounts that support the POP3 and IMAP4 protocols and enable remote access via these protocols.

Postm@n via SMS. Long SMS and MMS allows the transmission of new e-mail messages delivered to the e-mail account via SMS, long SMS or MMS to the mobile phone and sending of a response. It is not possible to transmit attachments via SMS and long SMS; the attachments transmitted via MMS have a maximum size of 300 kB. The service is automatically renewed in monthly intervals. The monthly subscription does not include the responses that are charged at the standard price of the respective message type according to the customer's tariff plan.

Postm@n via POP3 enables the download of all delivered and unread messages from e-mail accounts to a mobile phone or PDA/MDA set up as per the instructions at www.t-mobile.cz. This add-on is intended primarily for the users of the Twist Surf+ bundle or the Surf+ add-on to whom it enables access to their e-mail via an integrated POP3 client in the phone free of charge (within the TMCZ network). Access to the Postm@n service via POP3 is also free of

charge under further bundles (Surf&Mail+, Internet+) and tariff plans (Internet Basic, Standard and Premium) where, however, it limits receipt of e-mail attachments. Other users pay for the volume of data transmitted.

For more information visit www.t-mobile.cz/postman.

SMS	1.70 (2.04)	1.70 (2.04)	1.70 (2.04)

Prices are stated in CZK without (in brackets with) VAT. In the case of voice calls and traditional data transfers (CSD), the first minute is charged in full, after which the connection is charged per second.

- 1) For free access in the case of Internet Premium, it is possible to send a registration SMS with OPEN to 9526. The sending of the registration SMS is free of charge. After that, you will receive a SMS with a user name and password for repeated access to the HotSpot service. The registration SMS must be sent from the SIM card on which the Internet Premium tariff plan is activated.
- 2) The transmission speed depends on the technology used, local conditions and the tariff plan selected. The aforementioned speed is the maximum speed in an area covered with 3G signal. In the case of Internet na cesty Standard (Internet on the Go Standard), the maximum speed achievable in the UMTS TDD network (Internet 4G) is 1 Mbps; In the case of Internet na cesty Premium (Internet on the Go Premium) it is 2 Mbps. The fastest currently available service/access technology supported by the terminal is always used.
- 3) With the web n'walk Internet Basic tariff plan it is possible to use WAP via APN GPRS WAP for the prices listed at www.t-mobile.cz. With the Internet Basic tariff plan it is not possible to connect via EDGE and GPRS.

If choosing Internet Basic, Internet Standard or Internet Premium, customers have to sign a Subscriber Contract for 1 year, 2 years or for an indefinite period. If entering into a fixed-term Subscriber Contract, you can purchase a modem or data card at a special price. If extending their contract for a fixed term, customers can choose a subsidised handset or obtain 2 or 4 monthly fees free of charge if entering into a contract for 1 or 2 years (the value of the performance provided free of charge is included in the price of the 5th monthly fee without any increase in such fee).

For the complete terms and conditions governing the use of the mobile internet tariff plans see www.t-mobile.cz.

Prices are stated in CZK without (in brackets with) VAT. The billing unit is 5 kB. The download speed is not guaranteed and may reach up to 236.8 kb/s. Deactivation of this tariff add-on is possible 30 days from activation at the earliest.

The free protocols only apply to APN Internet and APN WAP in the T-Mobile CZ network. Use of the Postm@n via POP3 service free of charge as part of the Surf+ and Twist Surf+ add-ons requires a specific phone set up; for more information visit www.t-mobile.cz/postmanpop3. Unlimited e-mail access free of charge as part of the Surf&Mail+ add-on applies to the receipt and sending of mail via the POP3/IMAP4/SMTP protocols; the use of Nokia Mail for Exchange (or another ActiveSync application) only applies to ports 443 and 80.

The earlier versions of the Price List and the terms and conditions available at www.t-mobile.cz apply to customers who activated the Surf+ or Surf&Mail+ add-on before 12 December 2007 (constantly being renewed). It is possible to switch to the new add-on version free of charge by sending a text with GPRS A SRF (for Surf+) or GPRS A SAM (for Surf&Mail+) to 4603.

When entering into a new fixed-term contract or extending the existing one along with purchasing a Nokia E66, E71, N95, iPhone 3G, Sony Ericsson Xperia X1, Sony Ericsson G502, T-Mobile MDA Compact IV, T-Mobile MDA Touch, T-Mobile MDA Vario IV or T-Mobile G1 at a special price, Internet+ is provided at a favourable monthly fee of CZK 399 excl. VAT (CZK 478.80 incl. VAT). The special monthly fee is conditioned on the commitment to use Internet+ for a period of 12 months and is provided for the period of duration of the Subscriber Contract (no more than 24 months).

The offer of the special price of Internet+ and Surf&Mail+ does not apply to customers with a Frame Contract.

The Surf+ and Surf&Mail+ tariff add-ons can be activated at the same time. These add-ons are subject to a limit of maximum monthly payment of CZK 799 (958.80 incl. VAT) irrespective of the amount of transmitted data. This limit applies to EDGE/GPRS transfers in the T-Mobile CZ network.

Notes

The Price List of T-Mobile Tariff Plans and Services for Key Accounts („Price List“) applies to all Subscriber Contracts falling under the regime of the Frame Contract. The validity and length of the Subscriber Contract results from the provisions of a particular Frame Contract and also the Order of Services.

Unless the particular Frame Contract stipulates otherwise, it is possible for the Subscriber Contracts falling under its regime to activate only the tariff plans and services specified in this Price List.

If a Subscriber switches from a tariff plan with the HIT add-on to another one whose HIT variant does not exist (such as Profi na miru/Customized Profi, Internet or M2M), his/her agreed term of Subscriber Contract remains unchanged. Another subsequent change to the HIT variant of another tariff plan is no longer possible and HIT can be activated only when extending the Subscriber Contract.

The **monthly fee** is always charged at the end of the respective billing period. If a service has been active only for a certain part of the relevant period (e.g., due to a tariff plan change, activation/deactivation during the billing period, temporary disconnection), the respective monthly fee will be proportionally adjusted (except for the Vikend+/Weekend+ and Pevná+/Fixed network+ add-ons which are always charged in full). The number of free units will also be adjusted accordingly.

The **free minutes** apply to voice calls to all Czech networks and to the voice mailbox (unless it is stated otherwise). These free minutes do not apply to international calls, roaming calls and some additional services. Free minutes can be used during the billing period or, if applicable, proportionate part of this period (see the monthly fee) and can be rolled over to the next period.

Credit in credit tariff plans is equal to the monthly fee; the HIT variant of the credit tariff plans offers an extra 20% of monthly credit to customers. In other tariff plans that include credit, its amount is specified in the price list for the respective tariff plan. If a subscriber has been using such tariff plan only during a certain part of the billing period, the monthly fee and credit will be proportionately adjusted depending on the number of days on which the customer has been using the tariff plan. Credit serves exclusively for the payment of prices for voice phone calls, SMS and MMS to all Czech networks according to the Price List of Services. Credit cannot be used for calls, SMS and MMS charged at special rates according to the Price List of Services, especially for premium-rate services, unless it is stated otherwise in the terms and conditions of the respective tariff plan. Unused credit is rolled over in accordance with the terms and conditions of the individual tariff plans. Bonus credit and credit included in bundles is not rolled over unless it is stated otherwise.

Free SMS must be used during the respective billing period or, if applicable, the proportionate part of this period (see the monthly fee); they cannot be rolled over to the next period; unused free SMS expire.

Short messaging service: One SMS contains a maximum of 160 characters. Some letters (especially those with diacritics) or symbols may take up more than one character.

Prices of phones and data handsets: The minimum price of individual products is always CZK 1, even if a combination of discount results in a decrease in the price of the product selected by the customer below CZK 1. In such case, the price of CZK 1 will be set up for the product and the remaining part of the discount will expire and cannot be claimed in any manner in the future. A Twist set contains separate products (and services) that will be handled separately in the event of a warranty claim.

SMS and MMS sent to customers: The SMS and MMS that start with * and are sent from 4603 or 4644 are commercial statements sent by T-Mobile Czech Republic a.s. To cancel their receipt please contact the T-Mobile Customer Centre on 4603 or the Customer Centre – Business on 4644 (from T-Mobile) or e-mail us to info@t-mobile.cz.

Wherever free units are mentioned in the text, this is understood to mean credit in the case of credit tariff plans. The price of the monthly fee provided free of charge is included in the price of the immediately following monthly fee charged or in the price of the standard monthly fee. The maximum length of one call made via a SIM card provided by T-Mobile Czech Republic a.s. is 65 minutes. All prices are stated in CZK.

Calls initiated before midnight on the last day of a billing period and terminated after 00.00 on the first day of the following billing period are charged as if they took place completely in the billing period in which they were initiated. I.e., the free minutes or credit allocated in the new period are not applied to these calls.

The basic prices of calls and SMS and free units for individual services do not apply to premium-rate services; these are charged at different rates according to the currently valid Price List, see chapter Other Services.

Data limit: All unlimited tariff plans are subject to the FUP (Fair Usage Policy) criterion in order to ensure equal quality and availability of the service for all of its users. After exceeding the stipulated volume of transmitted data during one billing period (in the case of prepaid cards this volume is calculated on the basis of the last 30 days), the transfer speed will be limited. The full transfer speed is restored at the beginning of the next billing period. The FUP criterion does not apply to access via a HotSpot. For more information see www.t-mobile.cz/internet

For the purposes of the obligation of the minimum purchase of services arising from the Frame Contract, amounts billed exclusive of VAT shall be applied. The items listed below shall not be applied for the purposes of fulfillment of the obligation of the minimum purchase even though they were billed in the Statement of Services by TMCZ:

Audiotex services

Audiotex services – private

Credit note

Debit note

Credit rolled over from the previous Statement of Services

Payments for system solutions services (e.g. ICT solutions etc.), services provided under ProfiNet and/or under the Contract for the Set-Up and Provision of T-Mobile ProfiNet, unless agreed otherwise in writing

The term contracts in this Price List means Subscriber Contracts, unless it is stated otherwise.

The VAT rate in this Price List is understood to be equal to 20%.

The terms and conditions of individual services can be found on www.t-mobile.cz.

In the case of services with an unlimited number of free units, the Subscriber must not use these units for a conduct that is in conflict with the legal regulations in force and/or the General Terms and Conditions of T-Mobile Czech Republic, a.s. (especially in conflict with the provisions 3.1.8., 3.2. 1., 3.2. 2., 3.2. 6 and/or 3.2.7.) or in connection with telemarketing, in the GSM gateway or SMS gateway (unless this has been agreed in the Frame Contract). For each breach of this obligation, T-Mobile Czech Republic, a.s. is entitled to charge to the Subscriber a contractual penalty in the amount of CZK 100,000 (for each SIM card) for each billing period in which such breach occurred. This shall not affect the right of T-Mobile Czech Republic, a.s. to proceed in accordance with Article 7 of the General Terms and Conditions of T-Mobile Czech Republic, a.s.

The T-Mobile network is understood as the mobile electronic communications network operated by T-Mobile Czech Republic a.s. in the territory of the Czech Republic, unless explicitly stated otherwise. The services directed at the T-Mobile Fixed Network (the part of the network of Česká Radiokomunikace a.s. that was purchased by T-Mobile Czech Republic a.s. on 1 December 2009) are charged as services to the “Fixed network in the Czech Republic” destination, unless explicitly stated otherwise.

Annex 2

Terms and conditions of the minimum monthly payment

1. A customer who undertakes the minimum monthly payment obligation will obtain a mobile phone, modem, laptop, PDA/MDA or another terminal at a special price or another benefit according to T-Mobile's current offer. It is possible to undertake the minimum monthly payment obligation when entering into a new Subscriber Contract or when extending the existing Subscriber Contract. The customer will specify the amount of the minimum monthly payment in the respective form. This amount cannot be altered during the period for which the obligation lasts.
2. A customer who has undertaken the obligation of a minimum monthly payment for an agreed time is obliged to use, during the period for which this obligation lasts, at least such a volume of telecommunications services each billing period so that the amount charged for these services is equal to the minimum monthly payment. The items listed in Annex 1 below are not included in the minimum monthly payment. T-Mobile may amend this Annex 1 at any time.
3. The minimum monthly payment obligation always relates to the Subscriber Contract. Thus, if more than one telephone number subject to the minimum monthly payment obligation is billed in one summary Statement of Services, the customer must meet the minimum monthly payment obligation for each of such phone numbers separately.
4. If the customer breaches the obligation to reach the agreed amount of payment for a specific phone number, T-Mobile is entitled to a contractual penalty in an amount corresponding to the difference between the amount billed and the minimum monthly payment. If the customer breaches the obligation to reach the minimum monthly payment for the entire agreed term, T-Mobile is entitled to a contractual penalty in an amount corresponding to the difference between the sum of the monthly fees remaining from the moment the obligation was breached until the expiry of the agreed term and the sum of the minimum monthly payments remaining from the time the obligation was breached until the expiry of the agreed term. This shall not affect T-Mobile's right to other contractual penalties in accordance with the General Terms and Conditions or other payments.
5. The agreed term of adherence to the minimum monthly payment obligation shall be extended for the period for which service on the SIM card has been suspended. If service on the SIM card is suspended for a part of the billing period, the customer is obliged to adhere to the proportionate part of the minimum monthly payment obligation. If the SIM card is blocked due to a breach of the customer's obligation (e.g., due to non-payment), this shall not affect the customer's obligation to adhere to the minimum monthly payment in relation to the respective SIM card.
6. In the case of transfer of the Subscriber Contract, the minimum monthly payment obligation is automatically transferred to the new subscriber. The original subscriber is obliged to inform the new subscriber of the existence of this obligation, its amount and the remaining period of duration. The new subscriber cannot

claim in relation to T-Mobile that he/she did not know about the existence of the minimum monthly payment obligation.

7. These terms and conditions shall become effective on 2 December 2009.
8. T-Mobile may amend these terms and conditions; the currently valid version shall be always available at www.t-mobile.cz.

Annex 1:

The following items are not included in the amount billed for the services provided for the purpose of fulfilment of the minimum monthly payment obligation:

- Discounts provided as well as free services or discounts provided by T-Mobile as part of marketing campaigns (with the exceptions of those provided to customers using the benefits arising from the Frame Contract or Important Customer Contract);
- Payments accepted in advance;
- Monthly fee for PROFINET services;
- Payments received for previous unpaid Statements;
- Overpayments;
- Advance payments received;
- Contractual penalties;
- Late payment interest;
- Activation or migration price;
- Payment for intermediated sale (donor SMS, Premium SMS, audiotex etc.);
- One-off fees (such as the fee for SIM card exchange or phone number change, etc.);
- One-off discounts (compensations);
- Twist top-up via the Statement of Services;
- Calls to toll-free numbers.

Annex 3

Special terms and conditions of the Subscriber Contract when purchasing a laptop at a special price

1. T-Mobile Czech Republic a.s., having its registered office at Tomičkova 2144/1, 149 00 Prague 4, Company ID 64949681, registered in the Commercial Register administered by the Municipal Court in Prague, Section B, Insert 3787 ("T-Mobile"), offers customers (with the exception of customers with the Frame Contract) laptops at a special price.
2. Customers can purchase the laptop at a special price when entering into a Subscriber Contract with a data tariff plan (4G Basic, Standard or Premium) or a voice tariff plan. Customers can also purchase the laptop when extending their Subscriber Contract with a data or voice tariff plan. When entering into or extending a Subscriber Contract with a data tariff plan, customers can also purchase the 4G Combi card or 4G modem for internet access. If a customer is purchasing the laptop at a special price when entering into or extending the Subscriber Contract, this fact will be specified in the order of services or amendment to the Subscriber Contract. If the customer purchases the laptop at a special price when entering into or extending the Subscriber Contract with a voice or data tariff plan, 4G Combi card or 4G modem, the Subscriber Contract is governed by the following special terms and conditions:
 - a) The promo event offering unlimited internet access for up to six months free of charge where the customer does not have to pay the monthly fee for the data tariff plan for six months (when entering into a 24-month Subscriber Contract) or three months (when entering into a 12-month Subscriber Contract) does not apply to the Subscriber Contract. Thus, the customers who have purchased the laptop at a special price are obliged to pay the monthly fee from the beginning of the contractual relationship.
 - b) The Subscriber Contract is always entered into or extended for a fixed period of 24 months. Customers who have purchased the laptop at a special price are obliged to adhere to the minimum monthly payment obligation the amount of which is agreed in the order of services or amendment to the Subscriber Contract for a period of 24 months. Otherwise they shall pay the contractual penalty specified in the terms and conditions of the minimum monthly payment.
 - c) Since customers do not provide a deposit when extending their Subscriber Contract, which could cover the risk of fraudulent conduct, the offer of purchasing the laptop at a special price when extending the Subscriber Contract only applies to customers who have had a concluded Subscriber Contract with T-Mobile for more than twelve months. Another prerequisite for the extension of the Subscriber Contract is an active Internet 4G Basic, Standard or Premium tariff plan at the time of contract extension. All conditions specified in the previous paragraph also apply to the extension of the Subscriber Contract accordingly.
 - d) Customers who wish to obtain the laptop at a special price have the opportunity to enter into a Subscriber Contract, extend their Subscriber Contract and have the laptop and related equipment (e.g., the 4G Combi card or 4G modem) delivered outside T-Mobile shops. Subscriber Contract extension, the laptop and related equipment can be ordered on the T-Mobile website or by calling the T-Mobile Customer Centre. On the T-Mobile website or during the phone call, the customer will select the place and time of delivery. The parcel will contain the Order of Services – Proposal to Enter into a Subscriber Contract form or the Amendment to the Subscriber Contract form, the laptop, additional equipment, information materials and, if applicable, other products or documents based on the customer's choice. Upon delivery, the customer will sign the respective form and upon the fulfilment of the conditions necessary for the conclusion of the Subscriber Contract, the customer will accept the proposal to enter into a T-Mobile Subscriber Contract by activating the SIM card. The Subscriber Contract is thereby concluded. Due to the fact that in such cases, the customer has explicitly agreed (either via the website or during the phone call) on a visit for the purpose of an order pursuant to Section 57 (1) of the Civil Code, he/she does not have the right to withdraw from the Subscriber Contract without stating the reason and without sanctions pursuant to the legal provisions on consumer contracts.
 - e) T-Mobile has the right to agree with a customer who has purchased the laptop at a special price on a premature termination of the Subscriber Contract. If the Subscriber Contract is terminated prematurely by agreement, the customer is obliged to pay financial compensation for premature contract termination to T-Mobile in the amount of the difference between the special and the full price of the laptop from which the minimum monthly payments throughout the term of the Subscriber Contract will be deducted. The statutory amount of VAT shall be always added to the amount calculated in this manner. However, the financial compensation shall never be lower than CZK 100 incl. VAT. The full laptop price shall be determined according to the last valid Price List. The customer is obliged to pay the financial compensation to T-Mobile within the time limit specified by T-Mobile. The customer acknowledges that the obligation to pay financial compensation constitutes an obligation arising from the Subscriber Contract, and the authority to decide about such obligation first is the Czech Telecommunications Office.
3. These terms and conditions shall come into force on 1 October 2008. T-Mobile may alter these terms and conditions and the new version shall always become effective on the date of its publication at www.t-mobile.cz, unless another beginning of effect is stipulated.

Annex 4

Commercial terms and conditions of the Datový Roaming Evropa (Europe Data Roaming) tariff add-on

("Commercial Terms and Conditions")

T-Mobile Czech Republic a.s., having its registered office at Tomičkova 2144/1, 149 00 Prague 4, Company ID 64949681, registered in the Commercial Register administered by the Municipal Court in Prague, Section B, Insert 3787

1. These Commercial Terms and Conditions define the rules under which T-Mobile Czech Republic a.s. ("TMCZ") provides electronic communications services, namely the Datový roaming Evropa (Europe Data Roaming) add-on ("Bundle").
2. The Commercial Terms and Conditions are published on the TMCZ website at www.t-mobile.cz. The Commercial Terms and Conditions or their part may be further communicated via other media, such as press advertisements, posters, etc. In the event of any discrepancies between the text of the Commercial Terms and Conditions published on the internet and that published in another manner, the text published on the above-mentioned website shall always prevail.
3. The Bundle contains free units for internet access in the scope specified in the table below in the countries specified in these Commercial Terms and Conditions via GPRS, EDGE or 3G ("Data Service"). The Bundle enables the use of the Data Service in the given scope in each billing period at the price specified in the table below:

Size	Prices excl. (incl.) VAT
10 MB	399 (478.80)
15 MB	549 (658.80)
20 MB	699 (838.80)
30 MB	999 (1,198.80)
50 MB	1,499 (1,798.80)
150 MB	2,999 (3,598.80)

4. One Bundle can be used in one billing period. After using up the free units from the Bundle, data transfer in the countries specified in these Commercial Terms and Conditions is charged according to the currently valid roaming price list for the respective SIM card (price as per the Frame Contract or the currently valid roaming tariff plan).
5. The Data Service contained in the Bundle can be used on the SIM cards falling under a Frame Contract with a tariff plan with a monthly statement for internet and intranet access (private APN) or the BlackBerry service via a mobile phone or PDA/MDA.
6. The Data Service included in the Bundle cannot be used for data transfer in the territory of the Czech Republic. Unused Data Service limit is not rolled over to the next billing periods and expires without compensation.
7. The minimum billing unit of the Data Service that can be used under the Bundle is 100 kB. Free units from the Bundle are used first, before other free units applicable to data roaming services.
8. The Bundle is automatically deactivated if the Subscriber Contract is transferred to another Subscriber.

9. If the Bundle is activated for a Subscriber Contract, it is not possible to set up the Data Roaming Limit for the Subscriber Contract.
10. The Bundle or, more precisely, the free units included in it are prorated in relation to one complete billing period. If the Bundle is deactivated during a billing period and the customer has used an amount of free units higher than the amount corresponding to (this) one billing period as on the Bundle deactivation date, TMCZ is entitled to charge to the subscriber the free units used that exceed the corresponding amount according to the valid Price List of T-Mobile Tariff Plans and Services for Key Accounts. If the customer has activated the Data Roaming Limit service, the amount billed may exceed the given financial limit in this case due to the necessity to cover the spending in connection with the prematurely terminated Bundle.
11. The Bundle can be activated and, subsequently, no earlier than 30 days from activation, deactivated via the Customer Centre – Business.
12. Use of the Bundle may have an influence on reaching the selected level of the minimum monthly payment.
13. The Bundle cannot be used along with the T-Mobile BlackBerry Roaming or M2M Data Roaming add-ons.
14. TMCZ reserves the right to update and alter the conditions and scope of these Commercial Terms and Conditions or cancel the offer of this Bundle at any time. Such changes shall come into effect on the date on which they are published on the T-Mobile website, unless a later date is stipulated.
15. These Commercial Terms and Conditions shall come into force and effect on 1 July 2010.
Scope of validity of the Bundle

Austria, Belgium, Bulgaria, Cyprus, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, the UK as well as the Aland Islands, the Azores, the Canaries, French Guyana, Gibraltar, Guadeloupe, Madeira, Martinique and Réunion.

Albania, Andorra, Belarus, Bosnia and Herzegovina, Croatia, Faroe Islands, Iceland, Liechtenstein, Republic of Moldova, Monaco, Norway, Switzerland, Tunisia, Turkey, Ukraine and Yugoslavia.

Annex 5

Terms and Conditions Relating to the Christmas Offer of Double the Volume of Transmitted Data

T-Mobile Czech Republic a.s., having its registered office at Tomíčková 2144/1, 149 00 Prague 4, company identification number 64949681, registered in the Commercial Register administered by the Municipal Court in Prague, Section B, File No. 3787

1. These Terms and Conditions Relating to the Christmas Offer of Double the Volume of Transmitted Data ("Double Data Volume Terms and Conditions") set out the binding rules under which T Mobile Czech Republic a.s. ("TMCZ") offers its customers ("Subscribers") double the volume of transmitted data.
2. The Double Data Volume Terms and Conditions are published on TMCZ's website at www.t-mobile.cz. The Double Data Volume Terms and Conditions or any part thereof may also be communicated via other means, e.g., print advertising, billboards, etc. In the event of discrepancies between the text of the Double Data Volume Terms and Conditions published on the internet and the text of the Double Data Volume Terms and Conditions published in another manner, the text published on the website specified above prevails.
3. Issues not regulated in these Double Data Volume Terms and Conditions will be governed, with the necessary modifications, by the the Terms and Conditions of T-Mobile Internet v mobilu Standard, Klasik and Premium (Mobile Internet) in force, the Terms and Conditions of Rodinný internet (Family Internet) in force, the Terms and Conditions of Týmový internet (Team Internet) in force and the Terms and Conditions of Twist internet v mobilu na týden (One-Week Twist Mobile Internet) in force, as well as the General Terms and Conditions of T-Mobile Czech Republic a.s. in force, the Price List of TMCZ Services in force and the laws and regulations of the Czech Republic in force.
4. In an effort to ensure the same quality and availability of the data service for all users, TMCZ has introduced a FUP (Fair Usage Policy). After the data transmission limit is exceeded during one billing period (in the case of prepaid cards, the data volume is calculated for the last 30 days), the transmission speed will be reduced. Within this offer, the double volume of transmitted data means twice the volume of transmitted data compared to the volume specified in the Price List of Services in force in relation to the respective data tariff plans.
5. The offer is intended for all existing and new Subscribers to the following data plans:

IvM Standard
IvM Klasik
IvM Premium
Rodinný/Týmový IvM Standard
Rodinný/Týmový IvM Klasik
Twist Internet v Mobilu na týden

The offer also applies to the Internet v mobilu Klasik add-on, which is part of the Plus 1100 / HIT and 1600 / HIT tariff plans.

6. For Subscribers who have a data add-on/bundle activated for an indefinite term or who activate one by 31 December 2011, the double data volume will be valid until 31 January 2012; for Subscribers who have a data add-on/bundle activated for a fixed term or who activate one by 31 December 2011, including a

commitment for a data add-on/bundle within the offer of specially priced smart phones, the double data volume will be valid throughout the agreed duration of the commitment.

For Subscribers who concluded a Subscriber Contract with the Podnikatel Plus 1100 / HIT or 1600 / HIT tariff plans for an indefinite term or who conclude one by 31 December 2011, the double data volume will be valid until 31 January 2012; for Subscribers who concluded a Subscriber Contract with the Podnikatel Plus 1100 / HIT or 1600 / HIT tariff plans for a fixed term or who conclude one by 31 December 2011, the double data volume will be valid throughout the agreed duration of the Subscriber Contract/duration of the commitment.

7. The data volume relates to the Subscriber's billing period. This means that for existing Subscribers, the data volume will be increased always as of the beginning date of their respective billing period, though no earlier than as of 20 October 2011. For new Subscribers, the data volume will be increased as of the date of concluding a Subscriber Contract, taking into consideration TMCZ's technical possibilities and capacity.
8. TMCZ reserves the right to update and amend the Double Data Volume Terms and Conditions and the scope of this Offer or to cancel this Offer altogether at any time during the validity of the Offer. Such amendments will come into effect on the date of their publication on T-Mobile's website, unless a later date is determined. The Subscriber gives his or her express consent to such potential amendments upon conclusion of the Subscriber Contract.
9. These Double Data Volume Terms and Conditions come into force and effect on 1 November 2011

Annex 6

Internet Komplet Terms and Conditions

T-Mobile Czech Republic a.s., having its registered office at Tomíčkova 2144/1, 149 00 Prague 4, company identification number 649 49 681, registered in the Commercial Register administered by the Municipal Court in Prague, Section B, File No. 3787

1. These Terms and Conditions Relating to the Internet Komplet Plan ("Internet Komplet Terms and Conditions") set out the binding rules under which T-Mobile Czech Republic a.s. ("TMCZ") offers its Subscribers Internet Komplet (Internet Complete, hereinafter referred to as "Internet Komplet").
2. The Internet Komplet Terms and Conditions are published on TMCZ's website at www.t-mobile.cz. The Internet Komplet Terms and Conditions or any part thereof may also be communicated via other means, e.g., print advertising, billboards, etc. In the event of discrepancies between the text of the Internet Komplet Terms and Conditions published on the internet and the text of the Internet Komplet Terms and Conditions published in another manner, the text published on the website specified above prevails.
3. Issues not regulated in these Internet Komplet Terms and Conditions will be governed, with the necessary modifications, by the General Terms and Conditions of T-Mobile Czech Republic a.s. in force ("General Terms and Conditions"), the Price List of Services in force and the laws and regulations of the Czech Republic in force.
4. Internet Komplet is intended for all TMCZ Subscribers. With Internet Komplet, Subscribers can use internet access both via notebooks and their mobile telephones within one Subscriber Contract and for one monthly fee.
5. The offer may be activated at any T-Mobile or TMCZ partner shop, by calling the T-Mobile Customer Centre at 4603, in the My T-Mobile application or via other currently offered activation channels listed at www.t-mobile.cz.
6. The offer is valid from 23 October 2011.
7. Subscribers may enter into a new Subscriber Contract for Internet Komplet or switch to this plan from any other plan currently used by them, if permitted under the terms and conditions of their existing plan and by their Subscriber Contract. For the purposes of these Internet Komplet Terms and Conditions, the Subscriber means a Subscriber who entered into a Subscriber Contract with the Internet Komplet plan.
8. Upon signing their Subscriber Contract with the Internet Komplet plan, Subscribers receive a data SIM card which they can use for accessing the internet via their notebooks. When signing the Subscriber Contract for a fixed term of 24 months, Subscribers also receive a USB modem for accessing the internet via their notebooks at a special price as per TMCZ's current offer. Within the Internet Komplet plan, Subscribers may also access the internet via their mobile telephones; in such a case, they need to activate Internet Komplet on the SIM card using any of the existing voice plans. The respective voice plan, its terms and conditions and payment of the price for such a plan do not affect the use of internet access via mobile telephone within Internet Komplet in any way whatsoever. The Subscriber Contract for the voice plan in relation to which Internet Komplet is activated does not need to be registered in the name of the same Subscriber as the Subscriber Contract for Internet Komplet (with the exception of Subscriber Contracts activated under a Frame Contract). A Subscriber Contract for a voice plan means also a contract for the prepaid Twist service.
9. For successful use, Internet Komplet must be used on devices supporting GPRS/EDGE/3G technology.
10. Internet Komplet cannot be set up on a SIM card on which any of the offered data bundles or add-ons, including the Podnikatel Plus 1100 and Podnikatel Plus 1600 plans, is activated.
11. The only person who may use, or make changes to, the Internet Komplet plan is the Subscriber who concluded the Subscriber Contract for the Internet Komplet plan, not, for example, the Subscriber using the voice plan in relation to which internet access via mobile telephone within Internet Komplet was activated, if different from the former. An exception is the cancellation of Internet Komplet on the voice SIM card, which may be done also by the Subscriber using the respective voice plan or, more precisely, the user of the SIM card with the voice plan in relation to which Internet Komplet is activated.
12. The Subscriber may transfer internet access via mobile telephone within Internet Komplet from the existing SIM card with a voice plan to another SIM card with a voice plan only once in a billing period. If a Subscriber using a voice plan on his/her SIM card on which Internet Komplet is activated activates another data add-on or bundle, Internet Komplet will be automatically terminated on such SIM card with a voice plan and the Subscriber to the Internet Komplet plan may set this form of internet access within Internet Komplet on another SIM card with a voice plan, provided that these Internet Komplet Terms and Conditions are complied with.
13. The price and the FUP limit (the maximum volume of data that may be transmitted in a billing period at the highest possible speed) are specified in the Price List of Services in force. The billing period for the FUP limit is governed by the billing period for the data SIM card. The FUP limit is shared by both SIM cards on which Internet Komplet is activated. When the FUP limit is reached, the Subscriber may purchase an additional FUP limit in the amount and at the price specified in the Price List of Services in force; the Subscriber may do so repeatedly. Unused amounts of data within the FUP limit do not roll over to the next billing period. Information about the current FUP balance is available to Subscribers at www.t-mobile.cz in the My T-Mobile section.
14. The period of duration of the Subscriber Contract is extended by the period of suspension of services under the Subscriber Contract. In the event of suspension of services on the data SIM card with the Internet Komplet plan, provision of all data services under the Internet Komplet plan will be suspended. Suspension of services on the voice SIM card does not affect the functioning of, and billing for, the Internet Komplet plan.
15. In the event of a transfer of the Subscriber Contract with the Internet Komplet plan, the new Subscriber assumes all the rights and obligations of the original Subscriber, unless the parties agree otherwise. In the event of transfer of only the Subscriber Contract with the voice plan in relation to which the Internet Komplet plan is activated, Internet Komplet will be automatically cancelled on the voice SIM card on the date of transfer.
16. Subscribers may switch from Internet Komplet to any of the currently offered data plans.

17. TMCZ reserves the right to update and amend the Internet Komplet Terms and Conditions and their content or to cancel this Offer altogether at any time. Such amendments will come into effect on the date of their publication on T-Mobile's website, unless a later date is specified.
18. These Internet Komplet Terms and Conditions come into force and effect on 23 October 2011.
