The prices are stated in CZK without VAT (in brackets with VAT) per month and apply in the Czech Republic. Add-ons and bundles are charged according to the tariff plan with which the add-on or bundle has been activated unless it is stated otherwise. Unused units are not rolled over to the next month and are non-refundable. Add-ons and bundles are automatically renewed in subsequent billing periods until they are deactivated. Special rates and free units apply after using up the free units under the tariff plan, unless it is stated otherwise.

The special rates and free units apply after using up the free units under the tariff plan, with the exception of the Pevná mimo špičku (Fixed Network – Off-peak), T-Mobile mimo špičku (T-Mobile – Off-peak), PPS/PS+ (VPN/PN+) and SMS Víkend+ (SMS Weekend+) add-ons, in which case the special rates and free units apply first. All of the aforementioned add-ons and bundles can be activated at the same time (in the case of Volání 50+/Call 50+ and Volání 200+/Call 200+, only one of these add-ons can be activated; in cases like this, the last activated add-on will deactivate the previously activated, non-compatible one). In the subsequent billing periods, the add-on is automatically renewed until it is deactivated.

In the case of the Pevná+ (Fixed network+) add-on, the first two minutes are charged in full, after which the call is charged per minute. This principle applies to all calls to the fixed network in the Czech Republic, including the calls made using the free minutes.

The tariff add-on cannot be deactivated during the fixed period for which it has been activated (concluded).

For the complete terms and conditions applicable to the add-ons and bundles see www.t-mobile.cz.

Other one-off fees

	Price
Unwarranted service intervention	1 200 (1 452)

The prices are quoted in CZK without (in brackets with) VAT. The fee for an unwarranted service intervention covers the costs associated with the detection and removal of a defect if it is found following a notification of a defect by a Subscriber that the defect is on the part of the Subscriber (user) or that there is no defect at all or that following a prior arrangement, the Subscriber did not allow the service engineer to access the equipment or related parts of the installations or otherwise failed to provide the necessary assistance. If, based on such a notification, T-Mobile performs a service intervention; such intervention is considered to be an "unwarranted service intervention" or "unnecessary service call" (jointly referred to as "unwarranted service intervention"). Fees for unwarranted service interventions are billed to Subscribers based on the number of unwarranted service interventions and the flat fee specified in the Price List. Defects caused by third parties, e.g., a power supply failure at the terminal point of the Service, are considered defects on the part of the Subscriber. T-Mobile may charge the fee for an unwarranted service intervention in relation to Subscriber Contracts for the Internet ADSL/VDSL service concluded from 1 September 2012 onwards.

Calling from abroad (roaming)

Happy Roaming*

In the case of Happy Roaming, all services are charged at uniform rates depending on the area in which you are. You make calls at the same price in all networks in the given area. Happy Roaming can be activated with all T-Mobile tariff plans.

* Wherever the Price List mentions Happy Roaming, this also includes Happy Holiday Roaming.

Happy Roaming Price list	Outgoing calls	Incoming calls	SMS	MMS

Area 4	80 (96.80)	55 (66.55)	13 (15.73)	18 (21.78)

Prices are stated in CZK per minute without (in brackets with) VAT. The aforementioned prices of outgoing calls apply to calls to the Czech Republic, in the country visited and to another country in the same area. If a call is made between two different areas, the price applicable to the higher area is charged. (Example: When making a call from area 1 to area 3, the price of an outgoing call is CZK 45/min., i.e. based on the price for area 3). The connection time is charged per minute. Received MMS are free of charge, only the information from the T-Mobile Info service is charged based on the price list of this service. The division into individual areas is listed at the beginning of the Roaming Services chapter.

Note on roaming: In the border areas of the Czech Republic, the phone may look up a foreign network due to the signal overlap of foreign GSM networks, and your calls thus might be made via such foreign GSM network. This also applies to incoming calls, SMS, MMS and data. Therefore, please pay attention to the GSM network through which you are making your call in such areas. The price of calls to other than subscriber numbers (such as audiotex services) depends on the type of call and network from which the call was made. For more information on the prices for these services contact the T-Mobile Customer Centre. Roaming services can be billed only after we receive information from the respective roaming partner. Therefore, roaming traffic may be included in Statements of Services relating to a period later than that in which the service was used.

The earlier versions of the Price List and the terms and conditions available at www.t-mobile.cz apply to customers who activated the Surf+ or Surf&Mail+ add-on before 12 December 2007 (constantly being renewed). It is possible to switch to the new add-on version free of charge by sending a text with GPRS A SRF (for Surf+) or GPRS A SAM (for Surf&Mail+) to 4603.

When entering into a new fixed-term contract or extending the existing one along with purchasing a Nokia E66, E71, N95, iPhone 3G, Sony Ericsson Xperia X1, Sony Ericsson G502, T-Mobile MDA Compact IV, T-Mobile MDA Touch, T-Mobile MDA Vario IV or T-Mobile G1 at a special price, Internet+ is provided at a favourable monthly fee of CZK 399 excl. The special monthly fee is conditioned on the commitment to use Internet+ for a period of 12 months and is provided for the period of duration of the Subscriber Contract (no more than 24 months).

The offer of the special price of Internet+ and Surf&Mail+ does not apply to customers with a Frame Contract.

The Surf+ and Surf&Mail+ tariff add-ons can be activated at the same time. These add-ons are subject to a limit of maximum monthly payment of CZK 583.33 (705.83 incl. VAT) irrespective of the amount of transmitted data. This limit applies to EDGE/GPRS transfers in the T-Mobile CZ network.

Notes

The Price List of T-Mobile Tariff Plans and Services for Key Accounts („Price List“) applies to all Subscriber Contracts falling under the regime of the Frame Contract. The validity and length of the Subscriber Contract results from the provisions of a particular Frame Contract and also the Order of Services.

Unless the particular Frame Contract stipulates otherwise, it is possible for the Subscriber Contracts falling under its regime to activate only the tariff plans and services specified in this Price List.

If a Subscriber switches from a tariff plan with the HIT add-on to another one whose HIT variant does not exist (such as Profi na miru/Customized Profi, Internet or M2M), his/her agreed term of Subscriber Contract remains unchanged. Another subsequent change to the HIT variant of another tariff plan is no longer possible and HIT can be activated only when extending the Subscriber Contract.

The **monthly fee** is always charged at the end of the respective billing period. If a service has been active only for a certain part of the relevant period (e.g., due to a tariff plan change, activation/deactivation during the billing period, temporary disconnection), the respective monthly fee will be proportionally adjusted (except for the Vikend+/Weekend+ and Pevná+/Fixed network+ add-ons which are always charged in full). The number of free units will also be adjusted accordingly.

The **free minutes** apply to voice calls to all Czech networks and to the voice mailbox (unless it is stated otherwise). These free minutes do not apply to international calls, roaming calls and some additional services. Free minutes can be used during the billing period or, if applicable, proportionate part of this period (see the monthly fee) and can be rolled over to the next period. When changing the tariff plan, the unused free minutes for the part of the billing period in which the Subscriber used the original tariff plan do not roll over. These free minutes expire at the moment of changing the tariff plan. In the event of changing of tariff plan, suspension of the provision of services, transfer of the Subscriber Contract or change of the billing groups and in the event of a systemic change of the billing period, if any, the unused free minutes that have been rolled over shall expire.

Credit in credit tariff plans is equal to the monthly fee; the HIT variant of the credit tariff plans offers an extra 20% of monthly credit to customers. In other tariff plans that include credit, its amount is specified in the price list for the respective tariff plan. If a subscriber has been using such tariff plan only during a certain part of the billing period, the monthly fee and credit will be proportionately adjusted depending on the number of days on which the customer has been using the tariff plan. Credit serves exclusively for the payment of prices for voice phone calls, SMS and MMS to all Czech networks according to the Price List of Services. Credit cannot be used for calls, SMS and MMS charged at special rates according to the Price List of Services, especially for premium-rate services, unless it is stated otherwise in the terms and conditions of the respective tariff plan. Unused credit is rolled over in accordance with the terms and conditions of the individual tariff plans. Bonus credit and credit included in bundles is not rolled over unless it is stated otherwise.

Free SMS must be used during the respective billing period or, if applicable, the proportionate part of this period (see the monthly fee); they cannot be rolled over to the next period; unused free SMS expire.

Short messaging service: One SMS contains a maximum of 160 characters. Some letters (especially those with diacritics) or symbols may take up more than one character.

Prices of phones and data handsets: The minimum price of individual products is always CZK 1, even if a combination of discount results in a decrease in the price of the product selected by the customer below CZK 1. In such case, the price of CZK 1 will be set up for the product and the remaining part of the discount will expire and cannot be claimed in any manner in the future. A Twist set contains separate products (and services) that will be handled separately in the event of a warranty claim.

SMS and MMS sent to customers: The SMS and MMS that start with * and are sent from 4603 or 4644 are commercial statements sent by T-Mobile Czech Republic a.s. To cancel their receipt please contact the T-Mobile Customer Centre on 4603 or the Customer Centre – Business on 4644 (from T-Mobile) or e-mail us to info@t-mobile.cz.

Wherever free units are mentioned in the text, this is understood to mean credit in the case of credit tariff plans. The price of the monthly fee provided free of charge is included in the price of the immediately following monthly fee charged or in the price of the standard monthly fee. The maximum length of one call made via a SIM card provided by T-Mobile Czech Republic a.s. is 65 minutes. All prices are stated in CZK.

Calls initiated before midnight on the last day of a billing period and terminated after 00.00 on the first day of the following billing period are charged as if they took place completely in the billing period in which they were initiated. I.e., the free minutes or credit allocated in the new period are not applied to these calls.

The basic prices of calls and SMS and free units for individual services do not apply to premium-rate services; these are charged at different rates according to the currently valid Price List, see chapter Other Services.

Data limit: All unlimited tariff plans are subject to the FUP (Fair Usage Policy) criterion in order to ensure equal quality and availability of the service for all of its users. After exceeding the stipulated volume of transmitted data during one billing period (in the case of prepaid cards this volume is calculated on the basis of the last 30 days), the transfer speed will be limited. The full transfer speed is restored at the beginning of the next billing period. The FUP criterion does not apply to access via a HotSpot. For more information see www.t-mobile.cz/internet

("Commercial Terms and Conditions")

T-Mobile Czech Republic a.s., having its registered office at Tomičkova 2144/1, 149 00 Prague 4, Company ID 64949681, registered in the Commercial Register administered by the Municipal Court in Prague, Section B, Insert 3787

1. These Commercial Terms and Conditions define the rules under which T-Mobile Czech Republic a.s. ("TMCZ") provides electronic communications services, namely the Datový roaming Evropa (Europe Data Roaming) add-on ("Bundle").
2. The Commercial Terms and Conditions are published on the TMCZ website at www.t-mobile.cz. The Commercial Terms and Conditions or their part may be further communicated via other media, such as press advertisements, posters, etc. In the event of any discrepancies between the text of the Commercial Terms and Conditions published on the internet and that published in another manner, the text published on the above-mentioned website shall always prevail.
3. The Bundle contains free units for internet access in the scope specified in the table below in the countries specified in these Commercial Terms and Conditions via GPRS, EDGE or 3G ("Data Service"). The Bundle enables the use of the Data Service in the given scope in each billing period at the price specified in the table below:

Size	Prices excl. (incl.) VAT
10 MB	399 (482.79)
15 MB	549 (664.29)
20 MB	699 (845.79)
30 MB	999 (1,208.79)
50 MB	1,499 (1,813.79)
150 MB	2,999 (3,628.79)

4. One Bundle can be used in one billing period. After using up the free units from the Bundle, data transfer in the countries specified in these Commercial Terms and Conditions is charged according to the currently valid roaming price list for the respective SIM card (price as per the Frame Contract or the currently valid roaming tariff plan).

5. The Data Service contained in the Bundle can be used on the SIM cards falling under a Frame Contract with a tariff plan with a monthly statement for internet and intranet access (private APN) or the BlackBerry service via a mobile phone or PDA/MDA.
6. The Data Service included in the Bundle cannot be used for data transfer in the territory of the Czech Republic. Unused Data Service limit is not rolled over to the next billing periods and expires without compensation.
7. The minimum billing unit of the Data Service that can be used under the Bundle is 100 kB. Free units from the Bundle are used first, before other free units applicable to data roaming services.
8. The Bundle is automatically deactivated if the Subscriber Contract is transferred to another Subscriber.
9. If the Bundle is activated for a Subscriber Contract, it is not possible to set up the Data Roaming Limit for the Subscriber Contract.
10. The Bundle or, more precisely, the free units included in it are prorated in relation to one complete billing period. If the Bundle is deactivated during a billing period and the customer has used an amount of free units higher than the amount corresponding to (this) one billing period as on the Bundle deactivation date, TMCZ is entitled to charge to the subscriber the free units used that exceed the corresponding amount according to the valid Price List of T-Mobile Tariff Plans and Services for Key Accounts. If the customer has activated the Data Roaming Limit service, the amount billed may exceed the given financial limit in this case due to the necessity to cover the spending in connection with the prematurely terminated Bundle.
11. The Bundle can be activated and, subsequently, no earlier than 30 days from activation, deactivated via the Customer Centre – Business.
12. Use of the Bundle may have an influence on reaching the selected level of the minimum monthly payment.
13. The Bundle cannot be used along with the T-Mobile BlackBerry Roaming or M2M Data Roaming add-ons.
14. TMCZ reserves the right to update and alter the conditions and scope of these Commercial Terms and Conditions or cancel the offer of this Bundle at any time. Such changes shall come into effect on the date on which they are published on the T-Mobile website, unless a later date is stipulated.
