## Activity Report

### Facebook Account

Shows all child Facebook accounts as tabs

- Feeds by risk categories
- Top activity friends

The screenshot shows the PureSight Activity Report interface. At the top, there are profile cards for Jane, Linda, and Matt, with an 'Add Profile' button. A 'Settings' gear icon is in the top right. A left sidebar contains a menu with 'Activity Report' highlighted in red, and other options: Facebook, Websites, Mobile Apps, Chats, File-sharing, Alerts, and Email Report.

The main content area is titled 'Matt - Today's Facebook and Website Activities'. It features a 'Facebook Account' section with a tab for 'Mat Neary'. Below this is a 'Feeds (30)' table with columns for Category, Posted, and Received. The table lists various risk categories and their counts. To the right of the feeds is a 'Friends (4)' section, also highlighted with a red box, showing four friends: Onion Bisli, Alice Pawlee..., Paula Nazer, and a 'See all >' link. Below the friends is a 'Latest Questionable Feed' section showing a post from 'Mat Neary' with the text 'Fat bitch' and a timestamp of 02:40 on 2016/03/30.

The bottom section is titled 'Internet Activities' and includes a 'Websites (23)' bar chart showing 87% allowed and 13% blocked websites. A table below the chart lists 20 allowed websites, 3 blocked websites, and 0 alerts sent. To the right is a 'Online Time (00:08 h:m)' section with a 100% donut chart for 'Websites'.

## Facebook – Feeds tab

- All new feeds detected by PureSight that were posted on your child FB wall (Suspicious and non- Suspicious)
- All news feeds detected by PureSight posted by your child's friends on Facebook
- Report Duration

The screenshot displays the 'Facebook Activity Report -Matt-' interface. At the top, there are profile icons for Jane, Linda, and Matt, along with an 'Add Profile' button. The 'Activities' icon is in the top right corner. The report title 'Facebook Activity Report -Matt-' is prominently displayed. To the right, there are settings for 'Facebook Monitor' (checked), 'View only questionable content' (checked), and a 'View last:' dropdown set to '7 days'. Below the title, there are tabs for 'Summary', 'Feeds' (which is highlighted with a red box), and 'Friends'. The 'Feeds' section shows a list of posts from 'Mat Neary' and 'Renate Stark'. A red box highlights the first post from 'Mat Neary' with the text 'Fat bitch', which was posted at 02:40 on 2016/03/30. Below this, there are four more posts from 'Mat Neary' with the text 'I will kill you' and 'Fat bitch', posted at 02:40, 02:00, 01:59, and 01:52 on 2016/03/30 respectively. Each post includes a profile picture, a name, a text snippet, and a timestamp.

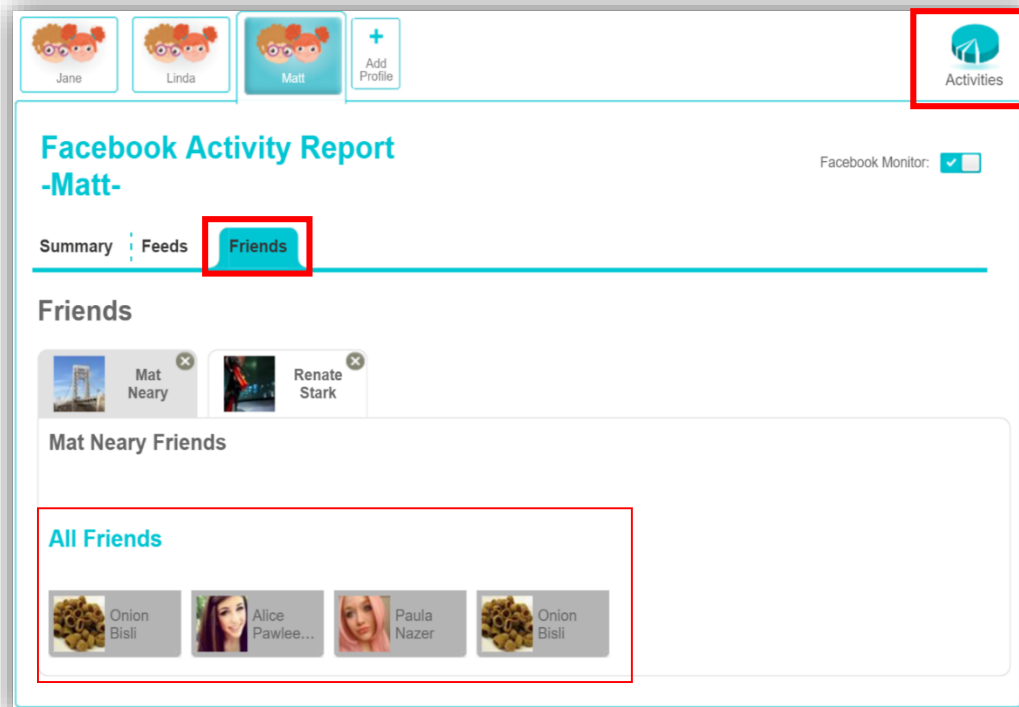

## Facebook – Friends tab

- A list of all the Facebook friends

## Facebook – Back to activity view

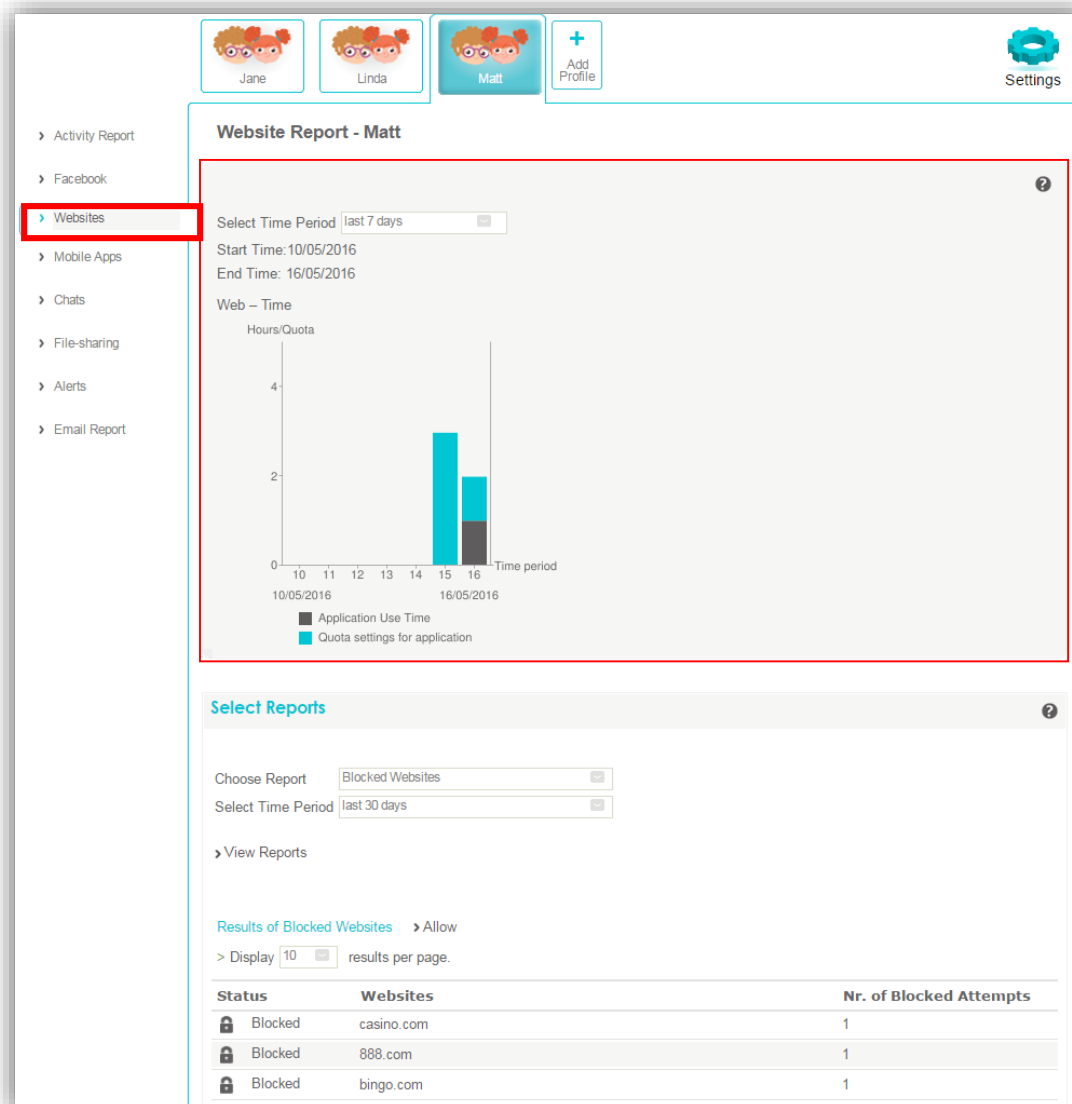

- To go back to main activity view, parent needs to click the Activity bottom on the top right-hand side

## Websites

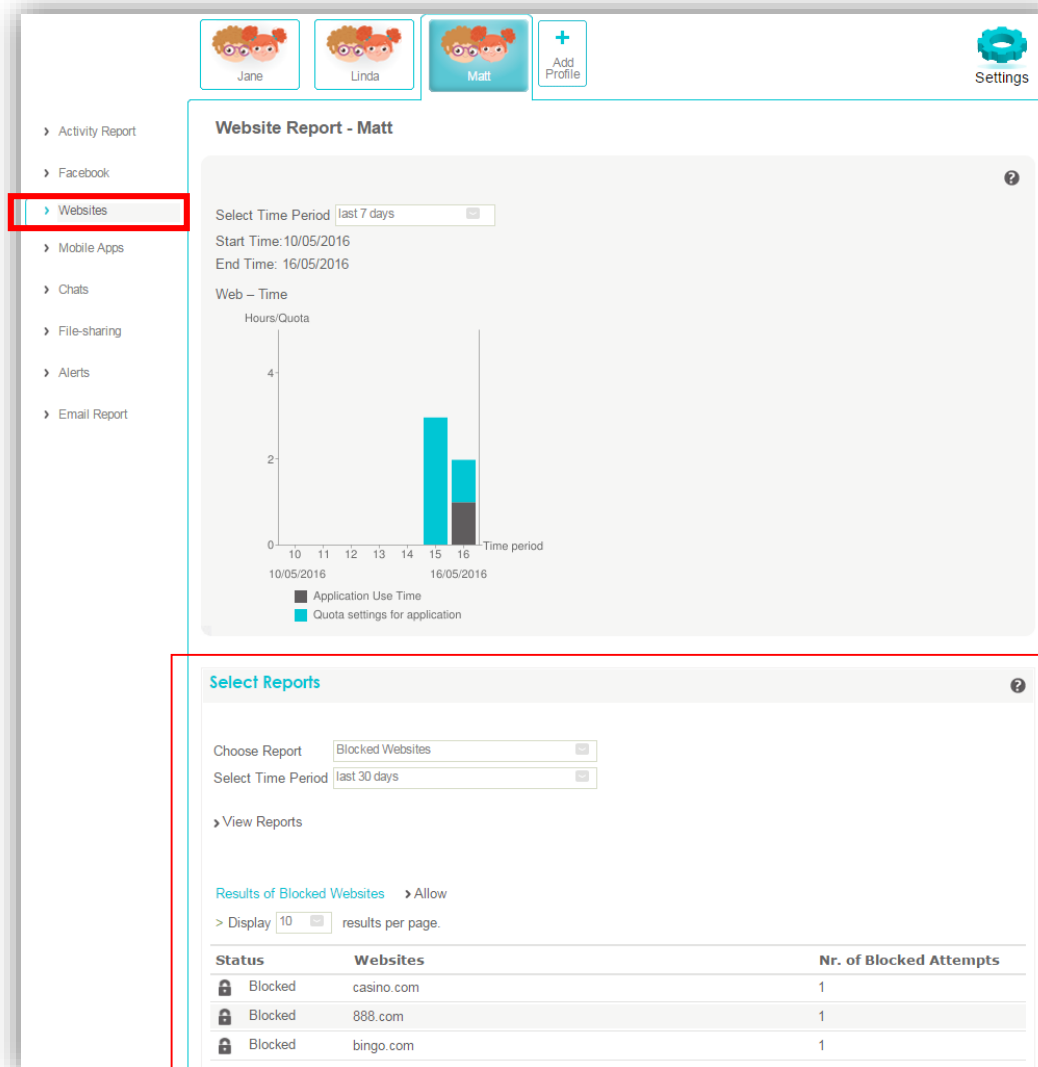

- Website surfing time consumption
  - Blue bar displays** the time quota set for the child
  - Gray bar displays** how much time the child actually spent on websites

## Websites

- **Website surfing time consumption**
  - **Blue bar displays** the time quota set for the child
  - **Gray bar displays** how much time the child actually spent on websites
- **Visited Website Report**
  - **Allowed websites** - which websites were visited and how many pages
  - **Blocked websites** - which blocked websites and how many attempts to visit each site and the reason for the blocking.

## Mobile Apps – Type of reports

- All mobile apps
- Blocked apps
- Allowed apps

The parent can block or allowing apps within this report

The screenshot shows the 'Mobile Applications Report - Matt' interface. On the left, a sidebar lists various report types: Activity Report, Facebook, Websites, Mobile Apps (highlighted with a red box), Chats, File-sharing, Alerts, and Email Report. The main content area is titled 'Mobile Applications Report - Matt' and includes a 'Select Reports' section with dropdowns for 'Choose Report' (set to 'All Mobile Apps') and 'Select Time Period' (set to 'last 30 days'). Below this is a 'View Reports' section with a link to 'Results of Blocked Mobile Apps' and buttons for 'Allow' and 'Block' (the 'Block' button is highlighted with a red box). At the bottom, a table displays the results of blocked mobile apps.

Status	Mobile App	App Name	Category	Time

Allowed		Communication for Groups	Productivity	21/5/2016 10:05:05

## Chats (Yahoo messenger)

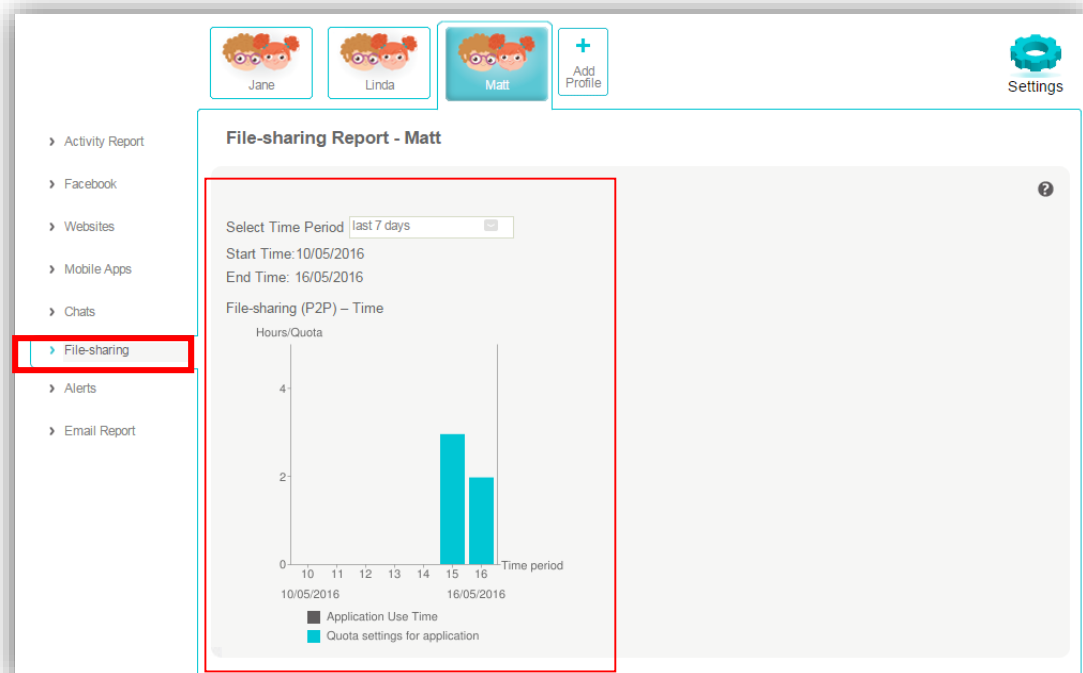

- Application Use Time
- Detected Chat Expressions (blocked, concealed & monitored)

## File-sharing (P2P)

- Application Use Time
- Detected Use of File-Sharing Services (blocked, allowed)

## Alerts

The following alerts are recorded by PureSight:

- Access restricted websites
- Override restrictions by guessing a password
- Use an undesired word in an instant messaging (chat) conversation
- Use a blocked instant messaging application
- Use a blocked file-sharing (P2P) protocol
- Removes the Facebook protection
- Login with the Parent Password
- Manipulate PureSight program files
- Guess the answer to your secret question

The screenshot shows the PureSight web interface. At the top, there are profile cards for Jane, Linda, and Matt, along with an 'Add Profile' button and a 'Settings' gear icon. On the left, a sidebar menu lists various report types: Activity Report, Facebook, Websites, Mobile Apps, Chats, File-sharing, Alerts (highlighted with a red box), and Email Report. The main content area is titled 'Latest Alerts - Matt' and features a section for 'Recent Misuse Attempts' (also highlighted with a red box). This section contains a table with the following data:

Attempt	Where	Details	Preventative Action	Device	When
Undesired webpage	Websites	http://sex.com/	Blocked	WIN7-64	2016-05-15 23:12:46

## Email Report

- Push Email reports about children's Online Activities, can be sent on a daily, weekly or monthly basis
- All Children profiles are listed and presented

## Facebook

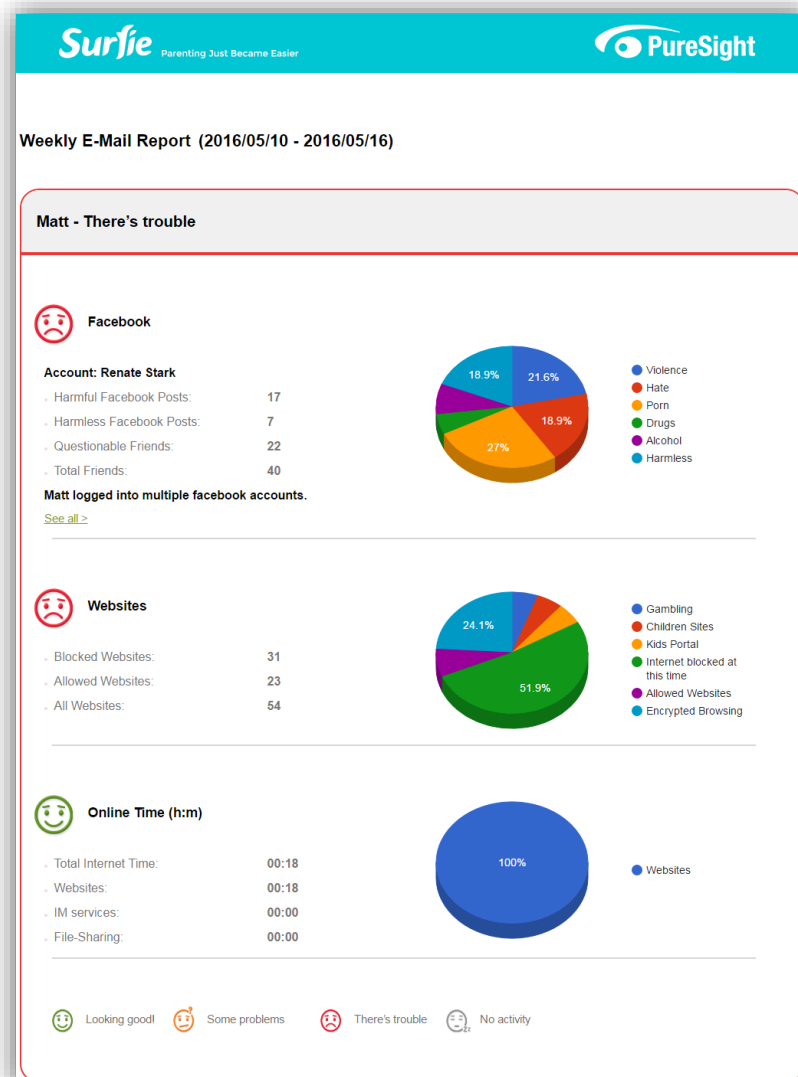

- how many friends and how many questionable friends the child added to his Facebook friend-list.
- how many harmless and how many questionable posts the child has on his Facebook Wall.

## Websites

- The number of allowed and blocked websites and the number of totally requested websites.
- a category pie of websites according to their classification.

## Online Time

- the total time spent on the Internet
- the time spent on website, Instant Messaging services and File-Sharing services.
- a pie with time estimates for the usage of Web, Instant Messaging and File-Sharing

- Common portal actions  
easy to access links

The screenshot shows the 'Matt - Settings' page. At the top, there are profile cards for Jane, Linda, and Matt, along with an 'Add Profile' button. A red box highlights the 'Settings' tab in the left sidebar. The main content area is titled 'Matt - Settings' and features a 'Preset Overview' section with a dropdown menu set to 'Matt (Pre Teen 6-10)'. Below this, there are toggle switches for 'Facebook Monitor', 'Website Filter', 'Chat Filter', 'File-Sharing Control', 'Time Control', 'Alerts', and 'Email Reports'. The 'Category Overview' section allows users to check categories they wish to block, with a grid of checkboxes for various content types. A red box highlights the 'Shortcuts' section at the bottom, which contains links for 'Install on another computer', 'Change Parent Password', 'Install on a mobile device', 'Protect my personal data', 'Add a website to my Blacklist', and 'Unblock a Chat Contact'.

## Websites Tab

- **Working modes**
- **Safe search** - Enable by default
- **Web Alerts** - Disable \ change email address
- **Block or Allow websites Method** -
  - **Block Mode** - Specific categories I want to block, while allowing access to everything else
  - **Allow Mode** - Specific categories I want to allow, while blocking access to everything else (very restrictive, recommended for young children)
- **Manage my Website List** -
  - Add specific domain or URL address to block or to allow
    - For instance: cnn.com; news.bbc.com; youtube.com and etc.

**Matt's Web Surfing Settings** Save Changes

Define alert settings  
Use safe search for social networking sites and search engines  
Add and manage the list of specific websites

**Choose working mode to ensure protection**

- ☒ **Filter** - Undesired websites are filtered out.
- ☐ **Block All** - Access is blocked to all websites.
- ☐ **Monitor Only** - Access to any website is allowed but recorded.
- ☐ **Allow All** - You are on your own. Access is allowed to all websites.

**Supported Browsers**

All browsers are supported.  
Surfie is browser-independent, which means your family is protected no matter which browser is used.

**Safe Search**

Check these boxes and Matt will not search for offensive material on Google, Yahoo, YouTube and many more search engines and social networking sites.

Use Safe Search  
☒ YouTube, Google, Yahoo, Bing, etc  
☒ Allow only safe search engines

**Web Alerts**

Alert me when Matt attempts to view or override potentially offensive websites.  
 My Email:   
Use a semicolon (;) to separate multiple email addresses.

**Block or Allow Websites**

**Step 1**

Select Block or Allow Mode

- ☒ **Block Mode** - Specific categories I want to block, while allowing access to everything else
- ☐ **Allow Mode** - Specific categories I want to allow, while blocking access to everything else (very restrictive, recommended for young children)

**Step 2**

Activate additional website blacklists and whitelists published by law enforcement and public agencies (recommended)

- ☒ **ACMA-List** (Australian blacklist containing paedophile and violent websites)

**Step 3**

**Manage My Website List**

Enter website and select Block or Allow

Use a semicolon (;) to separate multiple websites

- ☐ **Block** - Always blocks the website/webpage.
- ☒ **Allow** - Always allows the website/webpage.
- ☒ Allow entire website including all webpages belonging to this site (recommended).

Add

**My Website List** Import/Export Edit Remove Remove All

## Time Restrictions Tab

- **Weekdays and Weekend Settings**
  - Default: Monday to Friday
- **Basic settings**
  - **Set new Internet access times**
    - Define internet access limits on weekdays and weekends
    - Can be set as “no access”
  - **Set new limits for internet use (quota)**
    - The number of hours to allow internet use on weekdays and weekends

The screenshot shows the 'Matt's Internet Timetable' settings page. The left sidebar has a 'Time' tab highlighted with a red box. The main content area has a 'Time Control' toggle set to 'On' (checked) in the top right. Below this is a 'Change Weekdays' section with a red border, showing 'Weekdays begin on Mon' and 'end on Fri'. At the bottom right of the main area are 'Basic' and 'Advanced' tabs, with 'Basic' selected and highlighted with a red box. Below the tabs is a section titled 'Set new Internet access times' with a red border, containing a table for 'From' and 'To' times for Weekdays (Mon-Fri) and Weekends (Sat-Sun). Below that is another section titled 'Set new time limits for Internet use' with a red border, containing a table for 'Weekdays (Mon-Fri)' and 'Weekends (Sat-Sun)' with time limits in hours. 'Save Changes' buttons are located at the top right and bottom right of the main content area.

**Matt's Internet Timetable**

Time Control: ☒

**Change Weekdays**

Weekdays begin on Mon and end on Fri

**Basic** **Advanced**

To enable unlimited internet access at all hours of the day, select "no limit". To disable internet access at all hours of the day, select "no access". To define specific settings across the days (Timetable) or across applications (Time Limit), select "Custom". To view or change specific settings, select Advanced.

	From	To
Weekdays (Mon-Fri)	13:00	19:00
Weekends (Sat-Sun)	13:00	01:30

	Time Limit
Weekdays (Mon-Fri)	2h
Weekends (Sat-Sun)	3h

## Time Restrictions Tab

- **Advanced settings**
  - **Advanced Timetable**
    - define the timetable separately for each day of the week
- **Advanced time limits (Quota)**
  - Define the global quota
  - Websites quota
  - File sharing quota
  - IM quota
  - Single contact quota

The screenshot shows the 'Matt's Internet Timetable' settings page. The left sidebar has a 'Time' tab highlighted with a red box. The main content area has a 'Time Control' toggle set to 'On'. Below this is a 'Change Weekdays' section with 'Weekdays begin on' set to 'Mon' and 'end on' set to 'Fri'. The 'Advanced' tab is selected and highlighted with a red box. The 'Advanced Timetable' section shows a grid for internet access by day and time. The grid shows that internet access is allowed (blue) from 13:00 to 19:00 on weekdays and from 00:00 to 24:00 on weekends. The 'Advanced Time Limit' section shows quotas for various activities: Global (2h weekdays, 3h weekends), Websites (2h weekdays, 3h weekends), File Sharing (Block), IM (Block), and Per Single Contact (Block). A 'Save Changes' button is at the bottom right.

**Matt's Internet Timetable**

Time Control: ☒

Define the weekdays and weekends

## Privacy Tab

Control word you wish to block conceal or be alerted about

- Add a specific word to control
- Define the working mode
- Manage words list
  - Export
  - Edit
  - Change action
  - Remove
- Protection recommendations

The screenshot shows the 'Privacy' tab selected in the left sidebar. The main content area is titled 'Matt's Controlled Chat Words' and includes a 'Save Changes' button. A warning box states: 'Please switch working mode. Select "Filter" mode to ensure the expressions that you add to the list will be detected. Click here to turn the filter on.' Below this is the 'Add Words' section, which includes a text input field for 'Enter the word you wish to control.' and a list of actions: Block, Conceal, Flag, and Allow. Each action has a description and a checkbox. An 'Add' button is at the bottom of this section. The 'My Word List' section shows a table with columns for Status, Chat-word, and Alerts. The table contains three entries: Flag (+972-9-7661555), Block (9763), and Block (ID 334764331). Below the table are navigation links: Import/Export, Edit, Change Action, Remove, and Remove All. A 'Recommended information to protect' section lists various types of information that should be added to the word list, such as credit card numbers, school name, home address, etc. A 'Save Changes' button is at the bottom right.

**Matt's Controlled Chat Words** [Save Changes](#)

**Add Words**

! Surfie uses a list of selected chat words that are automatically controlled.

Enter the word you wish to control.

Use a semicolon (;) to separate multiple entries.

- ☒ **Block** - Blocks the entire chat and the contact.
- ☐ **Conceal** - Conceals specific expressions but does not interrupt the chat.
- ☐ **Flag** - Highlights expressions in reports but does not interrupt the chat.
- ☐ **Allow** - Allows selected expressions that might normally be blocked, for example, the name Dick.
- ☐ Alert me immediately when this expression is detected in chats.

## Alerts Tab

- **six misuse alerts concerning the online activities of the children**
  - Access restricted website
  - Override restrictions by guessing a password
  - Use an undesired word in an instant messaging (chat) conversation
  - Use a blocked instant messaging application
  - Use a blocked file-sharing (P2P) protocol
  - Removes the Facebook protection
- **How to get an alert**
  - By email or Never
- **Alert Tolerance**
- **Updating and adding a contact details**

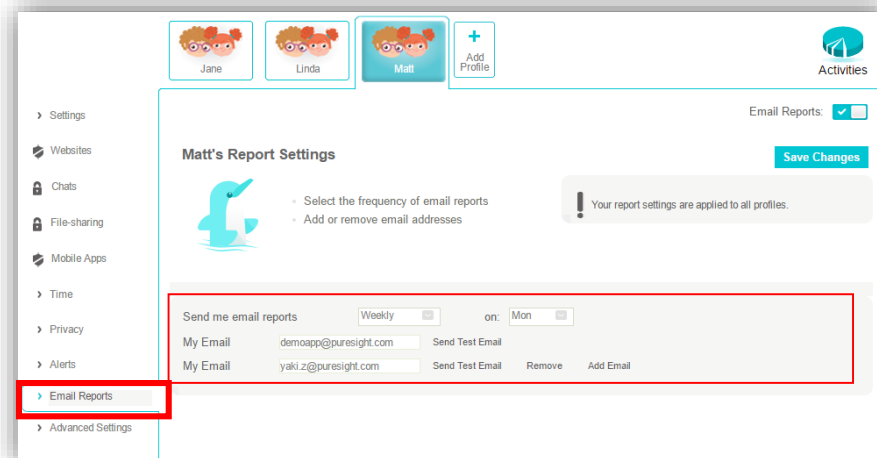

The screenshot shows the 'Alerts' tab selected in the left sidebar. The main content area is titled 'Matt's Alert Settings'. At the top, there are profile cards for Jane, Linda, and Matt, along with an 'Add Profile' button. The 'Alerts' section is highlighted with a red box. It contains a table with three columns: 'Websites:', 'How to alert?', and 'Tolerance'. The table lists six types of misuse: 'Access restricted websites', 'Override restrictions by guessing a password', 'Instant Messaging: Use undesired words in a chat', 'Instant Messaging: Use restricted Instant Messaging applications', 'File-sharing (P2P): Use restricted file-sharing applications', and 'Facebook: Remove the Facebook protection'. Each row has a 'How to alert?' column with a dropdown menu (set to 'by email') and a 'Tolerance' column with a dropdown menu (set to 'once', '3 times', '5 times', or 'never'). Below the table, there is a section titled 'Update my contact details' with a text input field for 'My Email' (containing 'demoapp@puresight.com'), a 'Send Test Email' button, and an 'Add Email' button. A 'Save Changes' button is located at the bottom right of the page.

Websites:	How to alert?	Tolerance
Access restricted websites	by email	once
Override restrictions by guessing a password	by email	3 times
Instant Messaging: Use undesired words in a chat	by email	5 times
Instant Messaging: Use restricted Instant Messaging applications	by email	once
File-sharing (P2P): Use restricted file-sharing applications	by email	once
Facebook: Remove the Facebook protection	never	once

## Email Reports Tab

- The Parent can define the dates to get the report and add more email addresses

The screenshot displays the 'Matt's Report Settings' page in the PureSight portal. At the top, there are profile cards for Jane, Linda, and Matt, along with an 'Add Profile' button. The left sidebar contains a list of settings categories: Settings, Websites, Chats, File-sharing, Mobile Apps, Time, Privacy, Alerts, Email Reports (highlighted with a red box), and Advanced Settings. The main content area is titled 'Matt's Report Settings' and includes a 'Save Changes' button. It features a section for 'Send me email reports' with a frequency dropdown set to 'Weekly' and a day dropdown set to 'Mon'. Below this, there are two rows of email addresses: 'My Email' with 'demoapp@puresight.com' and 'yaki.z@puresight.com', and a 'Send Test Email' button. A red box highlights the email report settings section. A notification at the top right states: 'Your report settings are applied to all profiles.'
